Utility allowances are in accordance with 24 CFR, Part 965.476, subpart E of the Federal Register Rules and Regulations which state that allowances should be "based upon the reasonable consumption of utilities by an energy conservation household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment."

Utilities used by the Resident in excess of the allowances allowed will be charged to the Resident on a monthly basis at the rate KHRA is charged by the utility companies. Meters will be re-read if Resident or Management have reason to believe an error was made in the original reading. If a resident does not agree that their utility charges are correct, they have the right to respond in accordance with KHRA's Grievance Procedure.
